

Joey Babineau

UNSTOPPABLE Online Income

REAL WORLD TACTICS FOR BUILDING
WEALTH ONLINE

[Earnings Disclaimer](#)

Introduction

Hi there, my name is Joey Babineau and I am the founder of DayJobHacks.com and Powerhouse Affiliate.

First let me thank you for taking the time to read this book. I know you likely get bombarded daily with different ads about how to make money online.

I am going to share a **step by step blueprint** of how to set up your own *“Entry Point Income Pages”* that **generate daily revenue** starting from scratch – plus I am going to explain how to solidify your business by turning these into online assets!

I am also going to share a **strategic paid traffic and content marketing strategy I use now to build my own 7-figure affiliate websites.**

I am going to share with you the exact blueprint that allowed me to go from **broke bartender with 40K in student loan debt**, to someone who now runs a 7-figure affiliate marketing business.

All the tactics and strategies I teach are things I do daily to create “**Unstoppable Online Revenue**”.

So, What Do I Mean by Unstoppable Online Revenue?

It is revenue that comes in even when you aren't working.

This means you aren't trading your time for money like in a typical job where you get paid by the hour or salary.

The only way this revenue stops is if your website crashes and burns forever – which is unlikely.

It involves setting up automatic and manual systems that operate to consistently drive more traffic to your websites.

Traffic = Money.

So Unstoppable Revenue can only be achieved with Unstoppable Traffic!

Where does one even begin?

What I am going to share in this book is something that has stood the test of time repeatedly.

It is very simple in concept.

My strategy is much different than most of the “gurus” you see out there **pitching the same theory day after day**.

I am going to assume you want results fast.

I have absolutely NO PATIENCE for waiting months to see results.

In fact, I want to see results today....

Anyone can **create an asset online that is designed to earn revenue**. However, most people never try, or they give up right before they were about to achieve success.

With this book I want to make the whole process easier for people.

First a Little About My Background

I have worked in the online Performance Marketing industry since 2002.

Since then I have been able to travel all over the world to network with like minded marketers at the world's biggest events in this space like Affiliate Summit East and West, Affiliate World Europe and other smaller events in different countries.

I tried making money online many times **and failed.**

When I was young, I had the vision of internet riches, but I didn't have all the information I needed to make it work. **I really hated being broke.**

I tried countless times to build online websites to rank in Google search results. **I failed.**

I then tried creating a digital product that I could sell through Clickbank that taught people how to play poker. **I failed.**

I partnered up with another performance marketer who wanted to start an “affiliate network” and we had no experience. Within 4 weeks of building it **we lost about \$25,000 to fraudulent affiliate marketers. I failed.**

I created a website in the diet niche that was too broad, and I didn’t focus on a sub niche. I spent months generating content and got no traffic. **I failed.**

I tried dropshipping and failed...

I tried blog networks and failed...

I tried web 2.0 and failed...

I tried popup ads and failed...

I tried at least 100 paid ad campaigns that failed...

I was getting nowhere, and I started questioning if I was a complete idiot for wasting my time trying all these “methods”.

In 2014 I had a **HUGE** breakthrough. At the time it seemed so trivial.

I had no idea it was going to change the direction of my life forever.

I was sitting in my dining room with my wife who was on her laptop browsing Facebook.

At the time there were only ads that appeared in the right side of our Facebook feed.

I saw an advertisement that caught my eye and asked my wife to click on it.

What I found more fascinating was how **it appeared as something that was targeted directly to her.**

The wheels started turning **and I decided to reverse engineer this ad and copy it's landing page, ads and offer.**

Then I bought an advertisement from Facebook and sent it to the exact same landing page and offer.

I knew the targeting. I just had to target someone who had the same interests and demographics as my wife!

In that first year of running those ads I made **over 7 Figures. This was LIFE CHANGING income for me.**

After struggling with years of failure, and running more and more into debt, I finally had a reason to celebrate.

I had discovered something that I never thought of before.

It is something I am going to share in this book.

Since that campaign I have spent millions of dollars in online advertising.

I now own a very successful online educational training platform called Powerhouse Affiliate, and I operate a few solid websites that generate **“Unstoppable Online Revenue”**.

I have trained over 90,000 people and have had many success stories.

A Brief About Affiliate Marketing

Affiliate marketing is a very simple model where you can get paid every time you refer someone to a product or service, or generate leads for companies.

But let me be honest...

Most people who attempt to earn money with online affiliate marketing will fail because they don't have the right information.

They think there is a magic “method” that all the successful people know about and aren’t telling.

I know this because at one time **I was in the same boat.** I would constantly ask “what is the secret?”.

It is very easy to get pulled into the “shiny object syndrome” while trying to make money online.

This is where you are constantly testing new methods, new traffic sources, new offers, and so on, **all while trying to find out that “secret” that doesn’t exist.**

There are thousands of “gurus” online all aggressively pushing you to buy their methods, with promises of mansions and Lamborghinis, and “passive income promises”.

They pitch these methods like they are some “fast hack to passive income” or getting rich fast, so it is very appealing to people.

Making money online is not exactly passive, you need to work at it every day if you want success. But you don't need to work at it full time and quit your job.

The rewards can change your life.

Whatever your reasons are for wanting more income, you need to **set your goals and stick to them through all your failures.** There is a light at the end of the tunnel.

For me my first goal was to free myself from the paycheck to paycheck lifestyle.

This was a very hard place to be in because it basically meant I didn't have enough money to cover **emergency expenses.**

I could never afford to do things like travel the world or pursue other hobbies I really enjoyed.

I have been able to make affiliate marketing work for me LONG TERM.

I quit 2 full time jobs in 2015 to do this full time from home. (One of those jobs was a Government Analyst the other was a bartending job).

Since then I have been able to travel the world to affiliate conferences in places like Berlin, Las Vegas, Spain, New York, and Canada.

I have also been able to start offline businesses from the revenue earned online.

Whether you are completely new or have lots of experience, you will learn **the way I do it and many others I have met in my travels.**

**You are About to Learn Why This
Business Model Will NEVER DIE!**

This business model requires ZERO experience, and people can work at their own pace no matter what level they start at.

Whether you are looking to earn extra money on the side, or you have a goal to quit your day job, or you want to increase your retirement income, this business model can potentially work for you.

BUT FIRST A FAIR WARNING

There is nothing magical here.

It's probably stuff you already heard of but likely have never REALLY tried it, or never really gave it a fighting chance.

It is going to involve 4 main components **Affiliate Marketing, Content Marketing, Website Monetization, and Media Buying**. All of these topics I cover in depth in our [5 Certification Training Courses at Powerhouse Affiliate](#).

What I learned from that one life-changing campaign...

Ok so earlier I spoke about the breakthrough campaign that changed my life and something that I learned from that campaign when I reverse engineered it.

I learned that there were 3 major things holding me back from success.

I was not providing real “perceived” value to people, I didn’t really know my audience, and I didn’t convince them I had a solution to their problems.

Before that life changing campaign, I was always desperate to just make money, **so I was extremely sloppy.**

I was trying to sell products to people that I didn’t know anything about, and I was producing content that I thought would make money but never really did.

I was just basically a robot pumping out useless content or buying ads to **unprofitable funnels that the “gurus” told me would work.**

It wasn't until I started really doing research into my audiences and getting to **know what they truly needed**, that I started to make traction in earning consistent revenue without even selling anything.

In fact, there is some merit in the saying “he/she could sell ice to a snowman”.

People who can sell ice to an eskimo understand the needs and wants of the eskimo. They have designed an angle that can convince the eskimo he needs this exact ice in his life.

Maybe it provides an easier way to protect his/her family from the cold harsh winter, or maybe it is perfectly designed to make building an igloo faster.

The same way that the advertiser targeted my wife and showed her a product that solved a specific problem, I started finding common

problems or wants and needs of people in my niche and started providing REAL human solutions to problems, wants or needs.

I now construct “Entry Point Income Pages” that have specific angles and I highlight exactly how the product or services I am offering will solve the readers’ specific problems.

This simple 1 page strategy is an EXTREMELY effective concept, and is what REAL marketing success is built on.

Now you likely want to know how do you put this all together and build long term Unstoppable Income?

Let’s dive into the actual system and ways you can start building your own success.

Step #1. You need to immerse yourself into a niche that meets certain criteria.

Now although this may sound like a basic step it is probably the **most common point of failure for most people** looking to build a business in general.

Many people I have encountered over the years had fantastic business ideas, great products, and massive budgets, but they still failed.

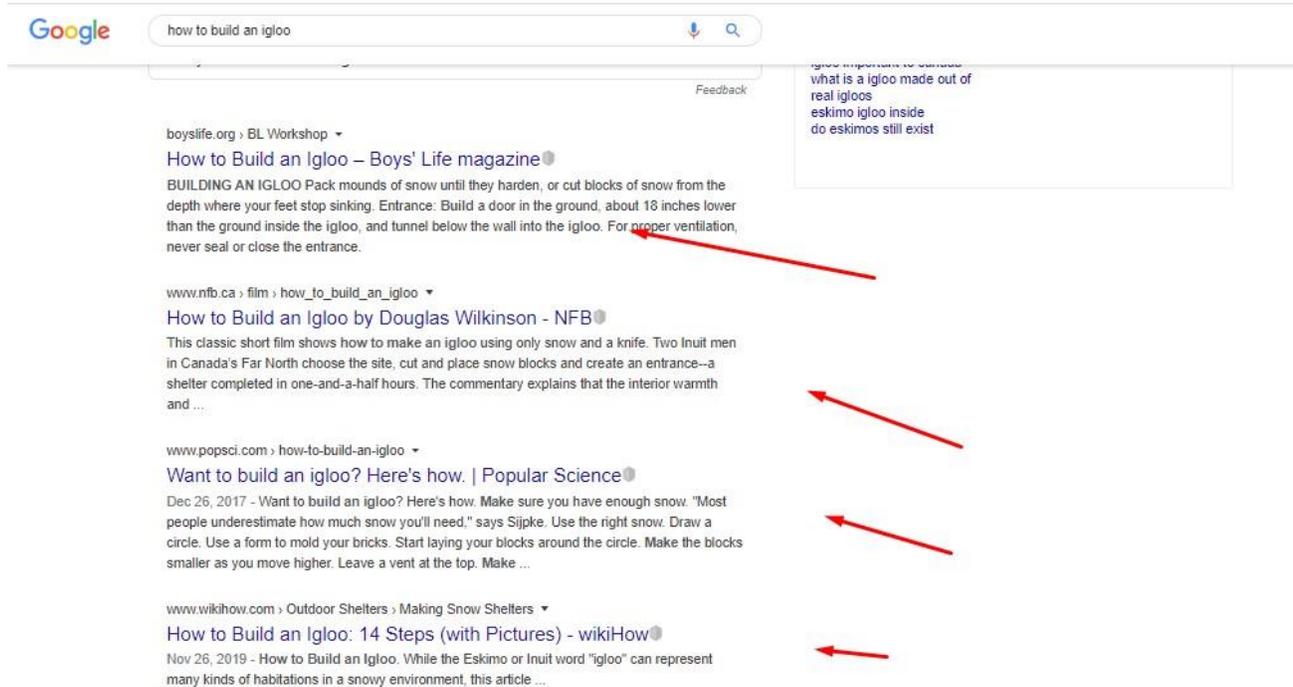

They failed because they didn't understand how to speak to their audience, and they didn't convince their audience they had a solution for their specific problems.

You won't make a dime if you don't deeply understand who you are catering to, and what the true needs of those people in your niche are.

Every single day billions of people are searching on Google, YouTube, and social media platforms for an answer to a question, or a solution for their problems.

Your job is to give them those solutions and answers.

If you give people what they want in the form of good quick 1 page content, Google will reward you with unstoppable traffic.

We will talk about how to do that effectively in a bit but for now **let's grasp where the opportunity REALLY is.**

There are literally thousands of niches and sub niches we can target, and thousands of offers that we can promote to those niches. **The fact that there are so many options is what makes this difficult.**

One of my biggest problems when I started was that I would keep jumping from offer to offer and never really laid a solid foundation in any one niche.

This resulted in burnout and failure.

It wasn't until I focussed specifically on a smaller sub-niche that I started to see drastic long-term success.

In fact, most of my revenue in the last 5 years has been from 2 specific sub-niche websites. These are websites dedicated to providing FULL VALUE to people looking for answers and help in a small sub sector of interests.

A sub-niche is basically a smaller niche inside larger niches.

For example, Addiction to Gambling is a sub-niche of Addiction, which is a sub-niche of Personal Health.

As you can see there are multiple depths to niches.

I have a ton of training material on niche selection, so I don't want to ramble on in this book too much.

Here are some key takeaways when choosing your niche:

1. **Choose a niche that has many offers that can be pitched to this niche.**

You should join some affiliate networks, so you have a wide selection of offers to choose from. I prefer working with CPA affiliate offers since I like the option of pitching lead generation types of offers. We have an entire course in our certification training that focusses specifically on [CPA Affiliate Marketing](#).

2. **Choose an evergreen niche.**

This method involves buying traffic and sending it to a page that offers people an answer or solution to their problems. You can get access to FREE advertising credits on most platforms so you don't have to spend out of pocket to get this started.

For example, people will always want to lose weight – so **weight loss is considered an evergreen niche.**

There will always be affiliate offers and products you can pitch to monetize that niche.

3. Choose a niche that isn't already completely tapped out.

The weight loss niche has very high competition therefore using a tool like [SEMRUSH](#) you can find smaller sub-niches easily that still have plenty of gaps to be filled and still offer a big opportunity.

Step #2. Build a Paid Search Traffic Campaign Now.

This is a training concept that I came up with over many years of building my own campaigns and training others.

If you don't have a budget to buy ads now, then don't worry you can still set this up for success using FREE Ad Credits!

Most people reading this book I assume want to see results fast.

It is in our nature to want fast results. I mean who really wants to start a project today only to see results in 6 months?

A lot of the Online Asset Building courses I have taken failed to mention that paid traffic is the fastest way to do research on my niche.

So Why Do I Focus on Paid Ads First?

While Search Engine Optimization and content marketing is something you may want to do in the future, (for longevity and unstoppable income), I prefer to do all my initial testing and research with a paid traffic campaign and here is why.

I always recommend to people to get their feet wet by starting immediately with Entry Point Income Pages. They are quick to setup, can be done with no experience, and can yield pretty much instant results with paid ads.

But first, here are the benefits to starting first with a paid search campaign:

It allows you to see results today.

You may make profits on day 1 (it's possible but will take a lot of practice)

It allows you to immediately see how your audience will respond to your content and you can adjust faster.

It allows you to find profitable Keywords much faster. Use these keywords later for your content marketing efforts.

Most of the biggest online affiliate marketers (who earn more than 7 figures annually) are doing it through paid advertising.

It is an essential skill you will eventually need to master if you want to really make a living online doing this.

Now before diving into paid traffic campaigns you should know what you are doing.

When I first started affiliate marketing, I built an authority style website and put in several months of work to build it, but I was getting no traffic to it.

I thought that **“if I build something then people from Google will just arrive on my site”**.

That was false. I wasted months of work only to realize **the niche was a bust**.

Getting long term traffic by building authority and building a brand with real content takes months and years.

That was why I started doing paid traffic arbitrage before building any authority sites.

I will only start building my authority website if I am able to consistently sell the product with paid traffic.

The reason why most people fail is because they put in hours and hours of work to **build a site and then they look at their traffic numbers and think – OMG no one is coming to my site, or if they are – no one is converting into leads or customers!!??**

They get discouraged and quit.

To see REAL Unstoppable Traffic from Search Engines You need to consistently add more content to your site, for several months to see any difference.

So Why Isn't Everyone Doing Affiliate Marketing Like This?

Of the 90,000 people who have come through my training, most of them have had little budgets to work with.

That is why our core training focusses on CPA Affiliate marketing, and starts with building a quick hit **“Entry Point Income Pages”** and directing them to FREE Ad credits.

After they get their feet wet and see actual results, we train on taking it to the next level – **online asset building to generate free traffic fast by focussing on low hanging fruit.**

My team and I train people on how to find gaps in any niche so that you can **rank your pages on Google or Bing or Youtube, and get free traffic.** We also train on building large email lists by collecting leads.

Best Way to Run Paid Ads?

I've have created most of my online income using paid traffic that goes to entry point income pages, some people call them **presell pages (or landing pages)** designed to go directly for a commission.

I have tested hundreds of campaigns and millions of dollars with paid traffic that is sent to these pages.

I buy traffic from Facebook, Google, Microsoft Ads, and many native ad platforms.

If I make more money in commissions than what it costs for the traffic it is successful. This is basically how affiliate arbitrage works.

Once I know how to make \$1 in profit on my arbitrage campaign – I can scale it pretty much as big as I want with the power of the internet!

I always choose niches that can provide me with a huge amount of traffic that I can tap into, and **I always choose niches that have an endless supply of long-term affiliate offers.**

I have provided below what I think are the top three profitable evergreen niches. These are very broad niches and they can still be broken down into smaller and more focused “sub-niches”.

1. Health- includes skin care, diet, joint pain, bodybuilding, meal plans, pain relief, acne, healthy recipes, yeast infections, blood pressure, heart attacks, etc.

2. Money - how to make money online, affiliate marketing, how to save money, how to invest, gambling, how to save money, mortgage, refinance, loans etc.

3. Self-Improvement- includes dating, relationship, marriage, motivation, success, etc.

There is a huge income opportunity in these niches – you just need to know how to do it.

The key to success with this strategy is finding Keywords that convert into commissions. The best type of traffic to discover keywords that convert is Paid Search.

There are two main sources of paid search traffic – Google Ads, and Microsoft Ads.

I highly recommend Microsoft Ads to start since you can get much cheaper search traffic and they are more lenient in their rules for advertising especially for affiliates.

Plus you can get a coupon for \$100 in Free Ads.

Once I find keywords that convert, I will use those keywords to start building out the “pillars” of an authority website. (Described more in our [advanced training](#))

The key to success with Search ads is to start by targeting keywords that have buyer intent or keywords that are most likely to convert into leads and customers.

I have done [complete case studies](#) on both Google Search Ads and Microsoft Search Ads that show every single step from doing your keyword and targeting research, to building out your ads and entry point income pages.

I will explain how to get access to these in a moment.

I even show the stats and conversions.

So, What's Next?

This is more advanced stuff once you are already making money...

My Asset building strategy is simple. Once I find profitable keywords using paid search and Entry Point Income Pages, I continue running those ads because they are obviously making money.

But at the same time, I start to build highly valuable pillar content on a blog or website. This can be the same website where my landing pages are hosted.

My goal here is to eventually rank for that keyword in the free Google or Bing search results with my content.

Over time I start creating more “supporting” content for the authority site and link those supporting articles to my pillar content.

I also connect my authority website to social media using free WordPress plugins, and that gives me an edge on generating more free traffic.

I also start to collect data myself by collecting emails or push style opt-ins from my readers.

By ranking my pages in the Google search results and building a brand, I am building a long-term **unstoppable income business**.

HOT TIP!!

Combine this with recurring payment affiliate programs and it is a true recipe for long term success.

As I continue to grow in a few solid niches, I hire people to write more content for me.

Over time as Google sees you fulfill the needs of your audience; they reward you with more and more momentum.

Most people never reach the momentum phase because they don't wait long enough.

If you produce real solid content, over time more people share the information through social media, the brand starts to get noticed by

Google, and people searching on Google for things about the niche will start to return to your site.

I capture email subscribers using a tool called [Optimizepress](#) to build my email capture pages, then I use [Aweber](#) to manage my email list.

I automatically email all my subscribers through an autoresponder series and once they are done the series, they are moved to a broadcast list. This broadcast list is managed by one of my staff.

This continues to drive me more traffic and sales, more leads, and more **CPA commissions**.

This gives me an advantage over all the other “arbitrage only” affiliates.

As mentioned, I have been using what are called Cost Per Action affiliate offers or CPA offers to drive 90% of the affiliate income!

Why does this matter?

CPA affiliate offers pay me MUCH more even when I don't sell anything at all.

WHAT?! HOW IS THAT POSSIBLE YOU ASK?

Most companies who own the actual products are paying me to get them a customer.

They don't base my commission on how much the customer paid them, but more on what the **real value of a customer is to them!**

By having a customer in their database, they can sell that person more of their products over and over, and the lifetime value of a customer is worth much more than the amount the customer paid in the first encounter they had.

I also use this same thinking when I build my own “list”. The “value of my visitors” is much more when I factor in all the revenue I generate from my automatic email follow ups!

This strategy is essential, and it gives me more of an advantage to “outbid” my competitors for paid clicks on my arbitrage campaigns.

To put this all into perspective for you let me explain it in mathematical terms **WITH EXTREMELY ACHIEVABLE NUMBERS** and show you the potential here:

One of the offers I promote is a drone.

drone720 Offer Valid For: **13:28**

Special Offer: Drone720 - Performance Foldable Drone
Price: ~~CA\$ 269.98~~ **CA\$ 134.99** (50% discount per unit)

50% Off
Free Shipping on all orders Today!
Do not browse away from this page! Free delivery available today

Step 1: Choose your Deal

Article	Price
<input type="radio"/> 1x Drone720 (50% Discount)	CA\$ 134.99 CA\$ 269.98
<input checked="" type="radio"/> BESTSELLER 2x Drone720 + 1 FREE (59% Discount, CA\$ 111.66/Unit)	CA\$ 334.99 CA\$ 809.94

Step 2: Payment Method
Pay Securely With: (No Fees)

Available on the App Store
GET IT ON Google play

The cost to consumer is \$99 USD (\$134 CAD) and I get paid \$55 USD in commission to sell this drone.

Let's say I buy 100 clicks to my "drone" landing page through my paid search arbitrage campaign.

100 VISITORS (Estimated Cost \$40 = 40 cents per click)

Remember this is super highly targeted traffic. Just like when I copied the campaign I discovered on my wife's computer, it all comes down to knowing your audience and targeting people.

My ad shows whenever people search on Google Ads or Microsoft Ads for keywords like "where to buy a drone", "best drone for a child", "drone discounts" etc....

Let's say that 25 of the 100 people who visit my landing page decide that to click through to the actual affiliate offer.

(25% CLICK THROUGH RATE)

Let's also say only one person out of those 25 converts into a customer.

(4% CONVERSION RATE)

TOTAL INCOME = \$55

TOTAL COST = \$40

FRONT END PROFIT = \$15 (33% ROI)

Now keep in mind I just made 33% profit on the front-end arbitrage campaign.

While this doesn't sound too exciting to many affiliate marketers, this too me is a goldmine that can easily be scaled.

When I finally find a campaign profitable on the front end, I implement a sneaky little trick to capture emails from my click throughs. (I show this hack in much more detail in a complete webinar you can get access to later in this guide. I will show you how I generate thousands a month in AdSense revenue using the same hack).

On average I am capturing emails **from about 15% of the traffic**. In this example that would mean 15 emails a day.

Over time I start to build a large list. In just 30 days I can have my list up to 450 people assuming I have not scaled yet. (all while making \$15 a day on the arbitrage campaign from just 100 clicks a day)

Now I can send an email to those 450 people and 20% of those people open the email and visit the blog post I created about the **Top 10 Drones for Under \$200.**

90 VISITORS (Cost to me \$0 because I own the traffic)

Let's say 3 of the 90 people convert because now this is **EXTREMELY targeted traffic.**

TOTAL INCOME = \$165 USD.

**BACK END PROFIT = \$165 USD on 1 email
blast.**

Let's look at a 30-day summary.

COST:

30 Days x \$40 daily in Paid Search = \$1200

REVENUE:

1 conversion a day x \$55 in Drone Commissions = \$1650

1 Email Blast to 450 people = \$165

Total Revenue - \$1815

TOTAL PROFIT = \$615

Plus 450 emails on my list.

Plus, I discovered great keywords for my content marketing strategy.

If the paid search arbitrage campaign EVER fails or begins to become saturated, I still have my **email list and my authority site generating money for the long term.**

If the offer ever fails, there will always be drones for sale or I can start dropshipping my own drones!

I can keep building my list and followers over time, and I keep sending people messages over and over and over!

Every time I send another email with new content, I can get more traffic to my authority site, and make more money.

Over time google starts to notice me more, and other people start to notice me, and my site becomes more valuable every day.

This is how unstoppable revenue starts to snowball...and how to build sellable online assets.

The beauty of this is that I don't even need to promote a product in the blog posts or videos to make money. I have other ways of monetizing!

So How Do I Rank My Website in Google?

To get Google to notice me, I want articles to focus on a keyword that someone would search in Google, so that the posts appear in the Google search results.

Now that I know which keywords convert its time to put those keywords into search engine optimized posts.

While I will likely discover many keywords using the paid search strategy, I also search for more keywords in order to help me fill in the gaps of information in my niche.

The absolute best tool to use for this keyword research again is [SEMRUSH](#).

You can **use it free for 7 days** which is plenty of time to get your first campaign set up.

You need to target keywords and subject matter that is sure to get you people who are going to convert.

Once you are in the [SEMRUSH](#) keyword tool, enter one of the keywords that convert in your paid search campaigns.

SEMRUSH will show you hundreds of similar keywords, how many searches they get, and how much competition!

It is truly an amazing tool and best of all it is 100% FREE! (for 7 days)

I often try as much as possible to use recurring revenue affiliate programs on my sites since it is a very easy type of recurring income.

You can find many recurring revenue programs on a network like Clickbank.

My sites also earn revenue from [AdSense ads](#).

This is another free program from Google that allows me to place ad widgets on my site and Google pays me every time someone clicks on those ads.

Google can place extremely relevant ads right inside my website without me having to choose the best ads that would get the most clicks.

The reason my AdSense ads get so many clicks every day is because the site is extremely targeted to the people who would be interested in buying what I am selling.

Now What?

It's time to put this all into
action...

Do you want to start implementing this for yourself?

Do you want help every step of the way?

Do want to scale and build your own online asset?

I can help you.

I can walk you through the entire process of setting all of this up including showing real live case studies of paid traffic campaigns on multiple different ad platforms, showing you step by step how to build your Entry Point Income Pages, and how to scale this into a real sellable online asset.

To do this properly you need to know about CPA Affiliate Networks, Entry Point Income Page Strategies, You need effective ads, the exact traffic sources, **the “special hack” that captures people from**

arbitrage campaigns, and in-depth ideas and live examples of some of my other campaigns and blogs.

I will show you exactly **how to create paid traffic campaigns that convert**, how to write the EXACT content that converts, how to make sure you have EXACTLY what is needed on your pages to convert and earn massive Earnings Per Click!

Performance		
Pacific Daylight Time		
	Current	Previous
Today - 06/18/2021	\$672.00	\$3,087.00

12 Months	\$1,309,738.00	\$202,086.00

Would you like to work with me on creating your own affiliate revenue stream?

Like any industry affiliate marketing requires skills and training.

You need to know what's working now, **what are the common sinkholes and pitfalls, and how to rise above the millions of people who are doing it all wrong.**

You also need to stay current.

The best way to do that is to join a community of **people who do this every day and you need to work with people who are successful.**

No matter what experience level you are, you can learn to do this yourself.

I want to give 100% full access to the entire training platform, and you will also get full access to my ongoing live webinars, case studies, offer strategy sessions, and hundreds of high converting CPA offers.

In fact, if you act today, I am going to throw in more extremely valuable bonuses that will save you THOUSANDS of dollars in setting up.

More specifically I am offering you a chance to get all the following:

- ✓ You are going to get the key to my entire “marketing vault” including **hours of video case studies on all major paid traffic sources**
- ✓ A complete **step by step training program** plus additional methods and shortcuts to generating HUGE growth in any campaign online.
- ✓ **The secret “hack” that earns me thousands** every month in backend commissions and AdSense revenue.
- ✓ Secrets to Rapid Business Growth
- ✓ **Thousands of dollars worth of Entry Point Income Pages**
- ✓ Access to our past and future webinars
- ✓ Full access to the community forum where you get **GUARANTEED responses from your coach.**

All of this is available to lifetime members for **\$997.00**

BUT since you made it this far, I have a very special option for you.

I want to give you access to **EVERYTHING** for just **\$197**.

[YES, I WANT IN FOR \\$197!](#)

I know this sounds so cheap that it almost makes you think there is a trick, or no value...**but there is no trick, NO UPSELL, and the value is INSANE.**

>>> THIS OFFER WILL BE GONE SOON <<<

IMPORTANT: I set this price to \$197 for lifetime access to our 5 signature courses and access to absolutely everything inside our community. After 1 year you can continue to be part of our community and get constant updates for only \$97 a year. I know a lot of people don't want to invest a large amount up front. This pricing model let's you work at your own pace, and you don't need to make a huge investment.

If you are serious about this, I want to give you the opportunity to get EVERYTHING inside.

[JOIN US NOW FOR \\$197!](#)

This low price allows you to come in and get full access to the training program and community, and you can start building your business without having to invest any more money. Use that money to buy more ads!

Our community is full of professional and aspiring entrepreneurs, bloggers, list builders, CPA affiliates, mobile marketers, email marketers, media buyers, SEO and social media pros, and the list goes on!

Here are just a few of the additional courses inside...

Stage 1 - Setting up your first profit center

- A Multi-Lesson course on the entire business of affiliate marketing. This is an essential piece to building your business from scratch. Get

rid of all other training programs and immerse yourself in something that is proven to work.
